Table 1 Splash Description

2 Log In

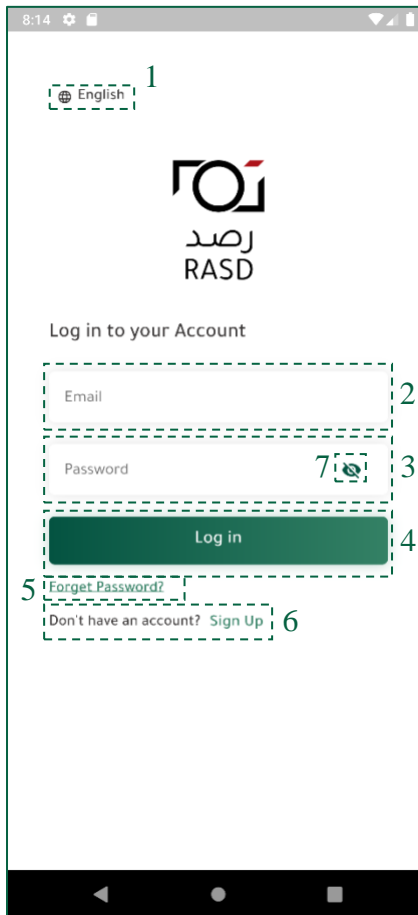

Figure 2 Log in Page

#	Description
1	A button opens a pop-up dialog box for drivers to choose their language preference.
2	An input text field for drivers to write their email. This field must not be empty. The email must be registered in advance.
3	An input text field for drivers to write their password. This field must not be empty. The password must be correct. The password must match the password of the registered email.
4	A button that allows to log-in and transfer the driver to the homepage.
5	A link that transfers the driver to reset password page.
6	A link that transfers the driver to the sign-up page.
7	A button that shows the password.

Table 2 Log in Page Description

- If the driver clicked on Forget Password Link -#5 from Table 2-

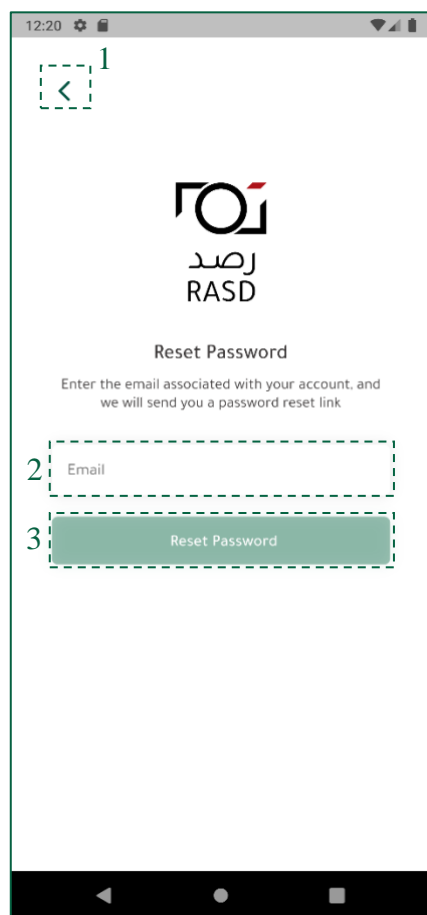

Figure 3 Reset Password Page

#	Description
1	A back button that allows the driver to go back to the log in page.
2	An input text field for drivers to write their email. This field must not be empty. The email must be registered in advance.
3	A button that is disabled until the drivers enters their email, if an valid email entered it will be enabled to send an email to the drivers email to reset their password.

Table 3 Reset Password Page Description

- If the driver writes an invalid email address -#2 from Table 3-

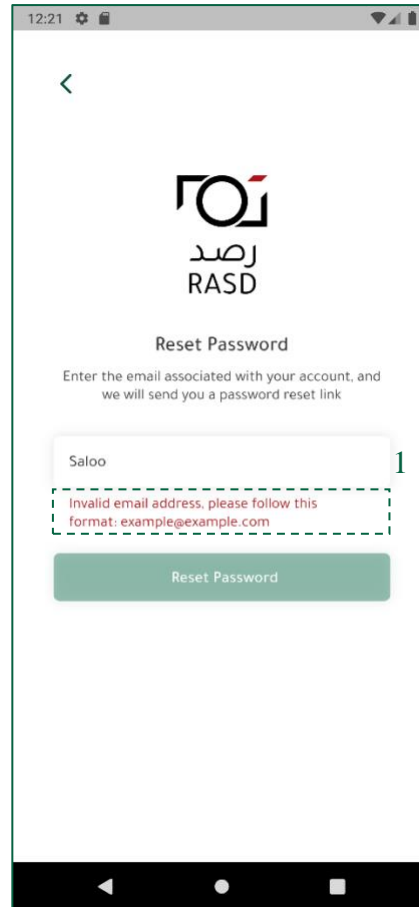

Figure 4 System Error Message About Invalid Email Syntax

#	Description
1	A system error message is shown when the driver tries to reset their password with an invalid email address.

Table 4 System Error Message of input field in Reset Password Page Description

- If the driver enters a valid email and clicks on the Reset Password button -#3 from Table 3-

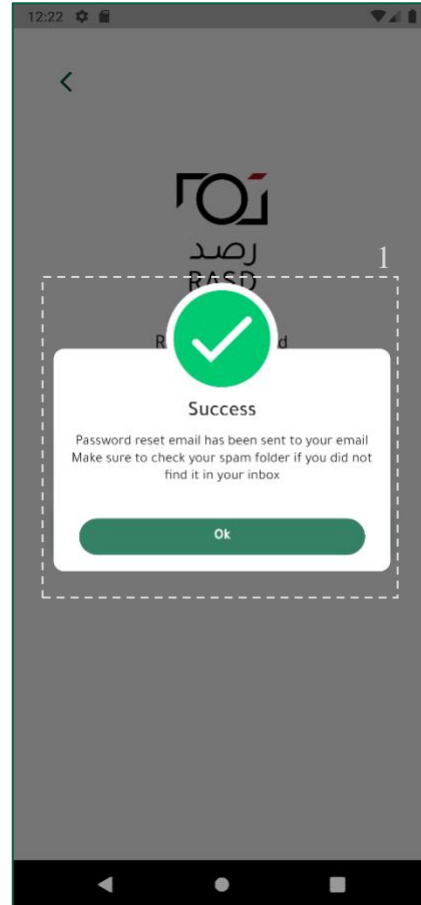

Figure 5 System Successful Response Message in Reset Password Page

#	Description
1	A system response message to indicate to the driver that an email has been sent to their email address to reset the password with a note for the driver in case the email went to the spam.

Table 5 Reset Password System Response Message Description

- If the driver clicks on Log In button without filling the email and password fields -#4 from Table 2-

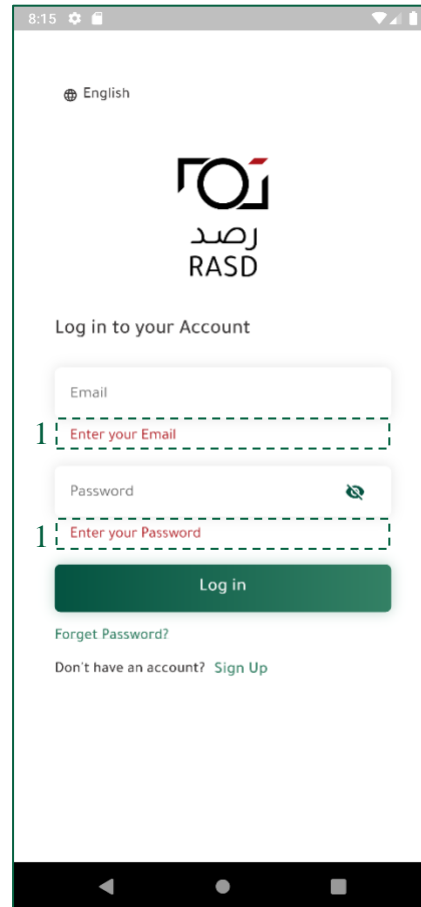

Figure 6 System Error Message When Click Log In with Empty Fields

#	Description
1	A system error message is shown when the driver tries to log in to the application without providing their credentials (Email and Password)

Table 6 System Error Message When Click Sign Up with Empty Fields Description

- If the driver enters a wrong password and/or email -#2, #3 from Table 2-

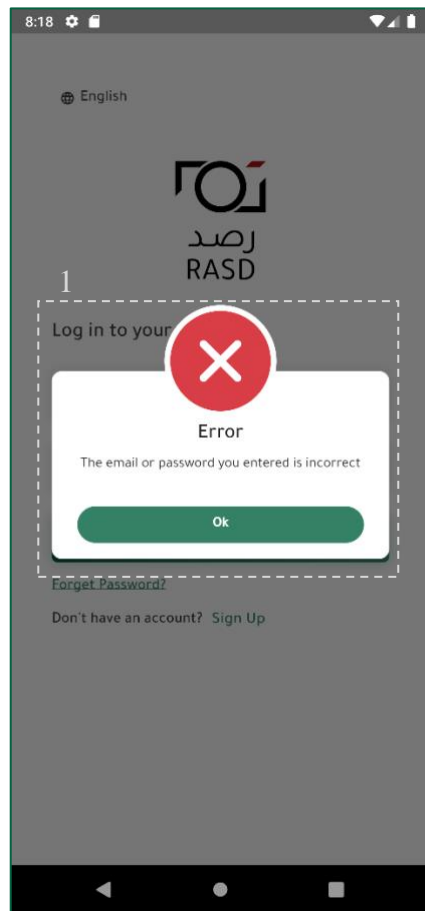

Figure 7 System Error Message in Log in Page

#	Description
1	A system error message is shown to indicates that the email or/and the password the driver is trying to log in with is incorrect.
2	A button that allows the driver to transfer back to the log in page.

Table 7 System Error Message in Log in Description

3 Sign Up

- If the driver clicks on the Sign-Up link -#6 from Table 2-

The screenshot shows a mobile app interface for creating an account. At the top, there is a language toggle button labeled 'English' (1). Below it is the RASD logo. The main heading is 'Create Your Account'. The form consists of several fields: 'First Name' (2) and 'Last Name' (3) are side-by-side; 'Email' (4) is below them; 'Phone Number' (5) includes a dropdown for country code (currently '+966') and a text input; 'Password' (6) and 'Confirm Password' (7) are below the phone number field. A checkbox (8) for 'I have read and agree to RASD Privacy Policy.' is below the password fields. A green 'Sign Up' button (9) is at the bottom of the form. At the very bottom, there is a link 'Already have an account? Log in' (10). The form fields are outlined with dashed green boxes, and each field or group of fields is numbered with a green box containing a number.

Figure 8 Sign Up Page

#	Description
1	A button that changes the language from English to Arabic and vise versa.
2	An input text field for driver to write their first name. A first name must not contain digits or symbols.
3	An input text field for driver to write their last name. A last name must not contain digits or symbols.
4	An input text field for driver to write their email. An email must be in this format: example@example.com
5	An input text field for driver to write their phone number. A phone number must be in this format: 966 and starts with the number 5
6	An input text field for driver to write their password. A password should be at least 8 characters long.

	<p>A password should contain at least one number.</p> <p>A password should contain at least one capital letter.</p> <p>A password should contain at least one small letter.</p> <p>A password should contain at least one symbol.</p>
7	An input text field for driver to confirm their password.
8	A checkbox to agree on privacy policy.
9	A button to sign up and transfer the driver to email verification page. It will be disabled until all input field are correct, and the privacy policy clicked.
10	A link that transfers to the driver log-in page.
11	A button that shows the password and make it visible for the driver.

Table 8 Sign Up Page Description

- If the first name field, last name, email, phone number, password, confirm password are empty and did not check on privacy policy -#2 #3 #4 #5 #6 #7 #8 from Table 8 -

The screenshot shows a mobile app interface for creating an account. The form includes fields for First Name, Last Name, Email, Phone Number, Password, and Confirm Password. Below the fields is a checkbox for agreeing to the privacy policy and a 'Sign Up' button. Red dashed boxes with numbers 1 through 6 highlight the error messages for empty fields: 1. 'Enter your First Name', 2. 'Enter your Last Name', 3. 'Enter your Email', 4. 'Number must begin with 5 and consist of 9 digits' (for the phone number field), 5. 'Enter your Password', and 6. 'Enter your Password' (for the confirm password field).

Figure 9 System Error Message When There is an Empty Fields

#	Description
1	A system error message is shown when the first name field is empty.
2	A system error message is shown when the last name field is empty.
3	A system error message is shown when the email field is empty.
4	A system error message is shown when the phone number field is empty.
4	A system error message is shown when the password field is empty.
5	A system error message is shown when the confirm password field is empty.

Table 9 System Error Message When There is an Empty Fields Description

- If the driver enters a wrong format in first name, last name, email, phone number, password, confirm password, and did not check the privacy policy -#2 #3 #4 #5 #6 #7 #8 from Table 8 -

The screenshot shows the 'Create Your Account' page of the RASD application. The form includes fields for first name, last name, email, phone number, password, and confirm password, along with a checkbox for the privacy policy. Numbered callouts 1 through 6 highlight specific error messages:

- 1**: Error message for the first name field: "Digits and symbols are not allowed".
- 2**: Error message for the last name field: "Digits and symbols are not allowed".
- 3**: Error message for the email field: "Invalid email address, please follow this format: example@example.com".
- 4**: Error message for the phone number field: "Number must begin with 5 and consist of 9 digits".
- 5**: Error message for the password field: "Password must be more than 8 characters and contain at least: one upper letter, one lower letter, one number, and one symbol".
- 6**: Error message for the confirm password field: "The passwords you entered does not match".

Below the form, there is a checkbox labeled "I have read and agree to RASD Privacy Policy." and a "Sign Up" button. At the bottom, there is a link for "Already have an account? Log in".

Figure 10 System Error Messages When Entering a wrong Format in Sign Up Page

#	Description
1	A system error message is shown when the driver tries to sign up with a first name that contains digits or symbols.
2	A system error message is shown when the driver tries to sign up with a last name that contains digits or symbols.
3	A system error message is shown when the driver tries to sign up with an email that does not match the correct format.
4	A system error message is shown when the driver tries to sign up with a phone number that does not match the correct format.
5	A system error message is shown when the driver tries to sign up with a password that does not match the correct format.
6	A system error message is shown when the driver tries to sign up with a password that does not match the entered password.

Table 10 System Error Messages When Entering a wrong Format in Sign Up Page Description

- If the driver enters the right format for the first name, last name, email, phone number, password, confirm password, and checked the privacy policy -#2 #3 #4 #5 #6 #7 #8 from Table 8-

Figure 11 Right Format for the Input Fields in Sign Up Page

#	Description
1	All fields are in the write format and ready to sign up.

Table 11 Right Format for the Input Fields in Sign Up Page Description

- If the driver clicks on Sign Up button -#9 from Table 8-

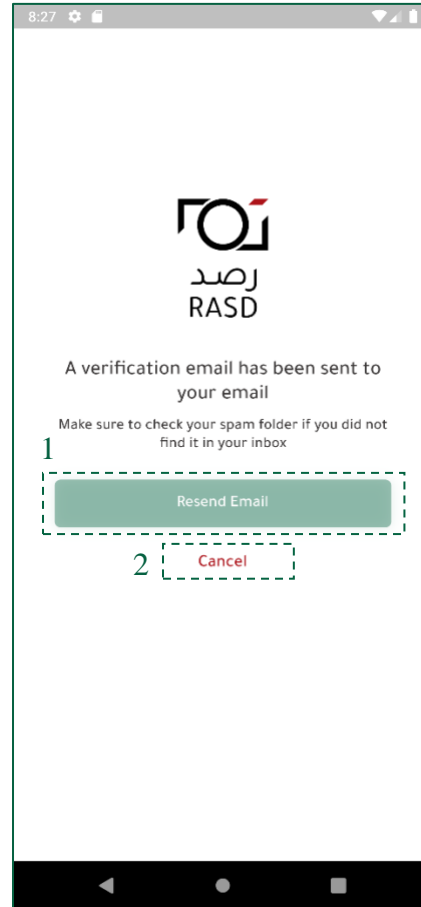

Figure 12 Email Verification Page

#	Description
1	A Resend button will be disabled for 30 seconds.
2	A cancel button which transfers the driver to the sign-up page.

Table 12 Email Verification Page

4 Home Page

- If the driver clicks on Log in and logged in successfully -#4 from Table 2-

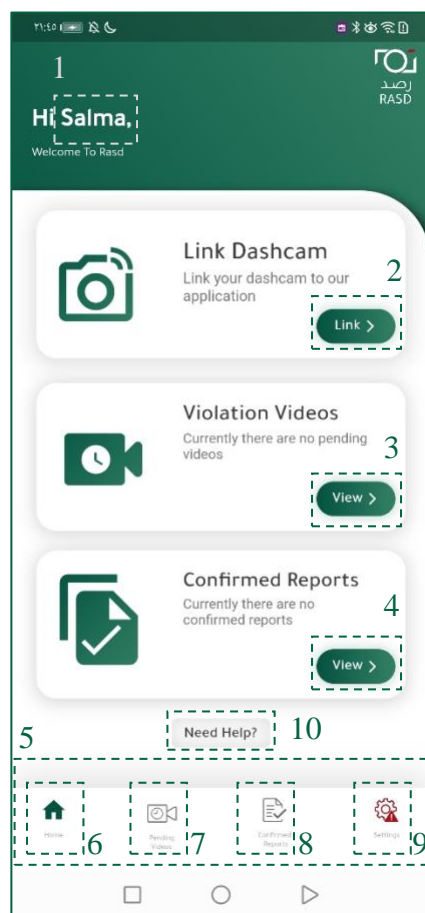

Figure 13 Home Page

#	Description
1	An output text filed for the driver's name retrieved from the application's database.
2	A button that allows the driver to transfer to the dashcam linking page from the homepage.
3	A button that allows the driver to transfer to the pending videos page from the homepage.
4	A button that allows the driver to transfer to the confirmed reports page from the homepage.
5	A bottom app bar to allow the user to navigate through the application pages.
6	A button in the bottom app bar colored in green to indicate that the driver is in the homepage currently.
7	A button in the bottom app bar to ease the navigation to the pending videos page from any page in the application.

8	A button in the bottom app bar to ease the navigation to the confirmed reports page from any page in the application.
9	A button in the bottom app bar to ease the navigation to the settings page from any page in the application and it shows warning when the driver's phone number is not verified.
10	A button that will transfer the driver to the direct messages of our twitter account.

Table 13 Home Page Description

5 Link Dashcam Page

- If the driver clicks on Link button and choose the first type of IP cameras -#2 from Table 13-

Figure 14 Link Dashcam Page IP only option

#	Description
1	Two option fields of the two types of IP camera “RASD” application support. The default option is the IP only camera.
2	An input text field for the driver to write the IP of the dashcam. This field must not be empty. The IP must be in the write format (000.000.000.000) where 0 is digit from 0 to 225.
3	A button opens a pop-up dialog box to inform the driver how to get the IP of the dashcam.
4	A button that allows the driver to link the dashcam to the application.

5	A back button that allows the driver to back to the home page.
---	--

Table 14 Link Dashcam Page IP only option Description

2	A button that will not allow the application to be run in the background.
3	A button that will allow the application to be run in the background.

Table 25 System Message To Ask Permission About Running In The Background Description

- If the driver links the dashcam successfully -#2 or #3 from Table 25-

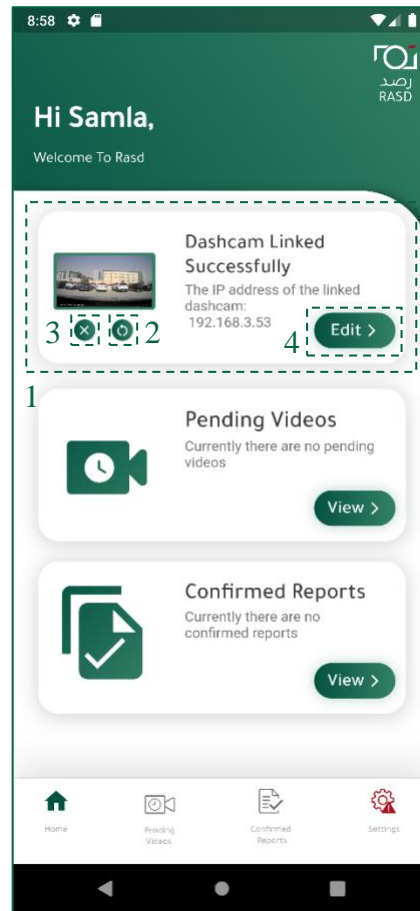

Figure 26 Dashcam Stream Status

#	Description
1	A window that shows the stream that is coming from the dashcam so that the driver can always monitor the status of this stream. Also, it shows a message that indicate that the dashcam have been successfully linked and the IP of the linked dashcam
2	A button that will refresh the dashcam stream if it begins to lag.
3	A button that disconnects the current dash cam from the application.
4	A button that allows the driver to transfer to the dashcam linking page Table 14 to link a new dashcam

Table 26 Dashcam Stream Status Description

6 Pending Violation Video Page

- If the driver navigated to the Pending Violation Videos Page while not having any pending violation videos -#3 or #7 from Table 13-

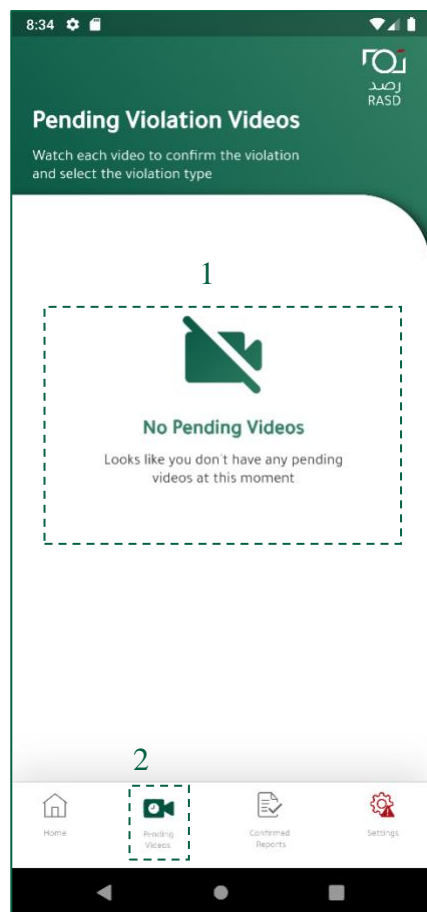

Figure 27 Pending Violation Videos Page

#	Description
1	A system message is shown to indicate the driver that there are no pending videos for them.
2	A button in the bottom app bar colored in green to indicate that the driver is in the pending videos page currently.

Table 27 Pending Violation Videos Page Description

- If the driver navigated to the Pending Violation Videos Page while having pending violation videos -#3 or #7 from Table 13-

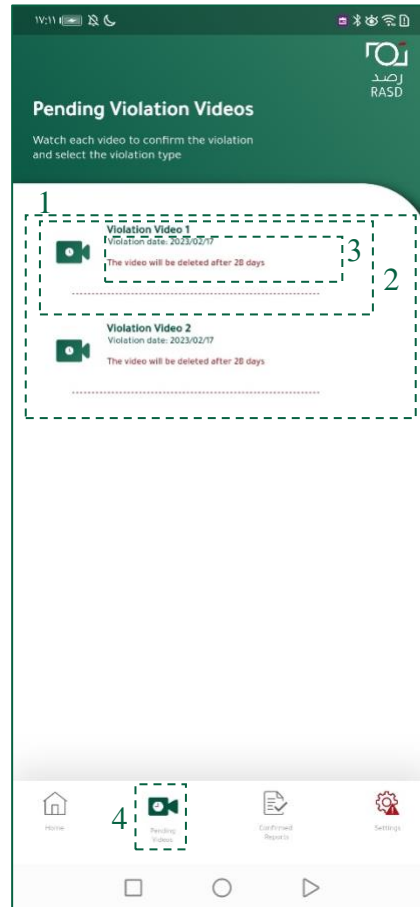

Figure 28 List of Pending Violation Videos

#	Description
1	A list of the driver's pending videos to be confirmed or deleted.
2	A single pending video to be clicked by the driver and transfer them to the violation video page.
3	The date of the violation, along with it a timer for each pending video which will be decremented and delete the video after a month.
4	A button in the bottom app bar colored in green to indicate that the driver is in the pending videos page currently.

Table 28 List of Pending Violation Videos Description

7 Violation Video Page

- If the driver clicks on one of the pending violation videos -#2 from Table 28-

The screenshot shows a mobile application interface titled "Violation Video". It features a back button (1) in the top left corner. Below the title is a large loading icon (2). A text prompt asks, "Potential violation/s were detected in the video above, Do you agree?", with radio buttons for "Yes" (3) and "No". Below this is a "Violation Type" section (4) with four checkboxes: "Driving on the opposite direction", "Drifting", "Overtaking", and "Other". An "Additional Information" text field (5) is labeled "(Optional)". At the bottom are two buttons: a red "Delete" button (6) and a green "Confirm" button (7).

Figure 29 Violation Video Page-1

#	Description
1	A back button that returns to the pending violation videos.
2	A loading Icon that displays until the violation video shows.
3	A radio button to choose if it is violation or not.
4	A check box that lists violation types, at least one type must be chosen.
5	An input text field for the driver to write any additional information that the authorities should know.
6	A delete button to delete the violation video.
7	A confirm button to confirm violation video.

Table 29 Violation Video Page-1 Description

- If the violation video loaded from-#2 Table 29-

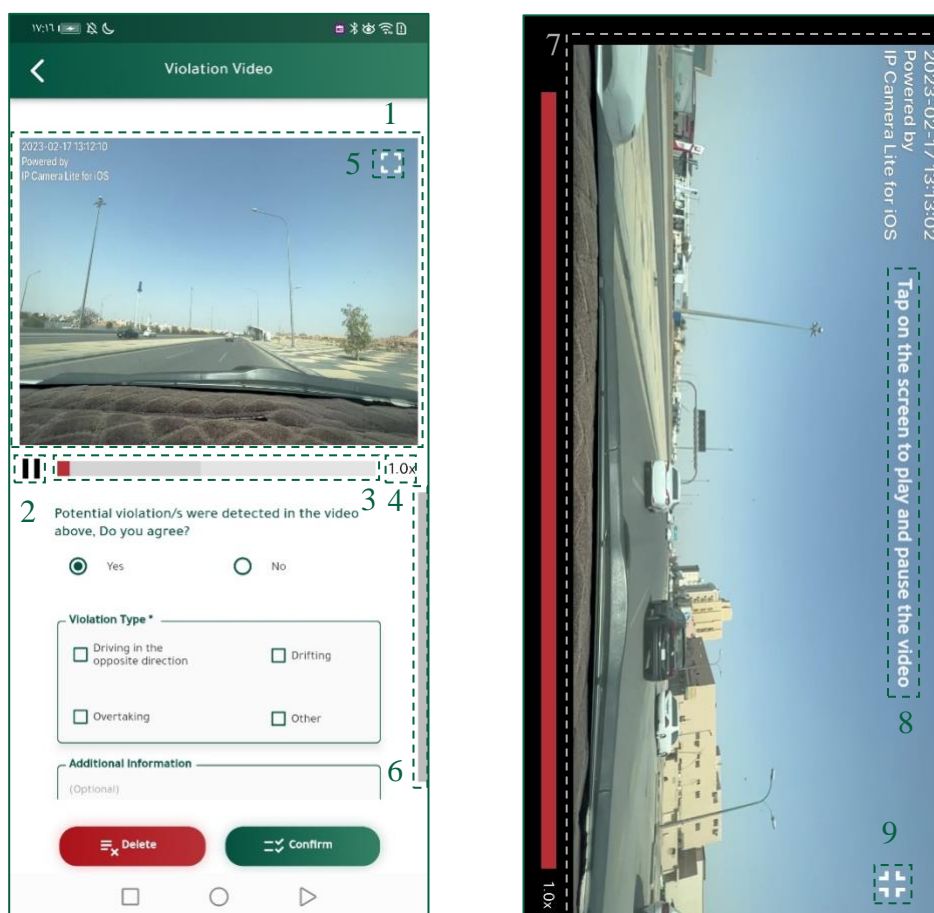

Figure 30 Violation Video Page-2

#	Description
1	A violation video record.
2	A button that stops the violation video record.
3	A bar that shows the progress of the video.
4	A button that can control the speed pf the video.
5	A button to zoom the violation video and see it in a full screen mode.
6	A scroll bar to see the whole list of violation types.
7	The video will enter the full screen mode, when the zoom button from -#5 Table 30 - is pressed.
8	Instruction for the driver about how to pause and play the violation video in the full screen mode.
9	A button to exit the full screen mode.

Table 30 Violation Video Page-2 Description

- If the driver clicks on 'No' option -#3 form Table 29-

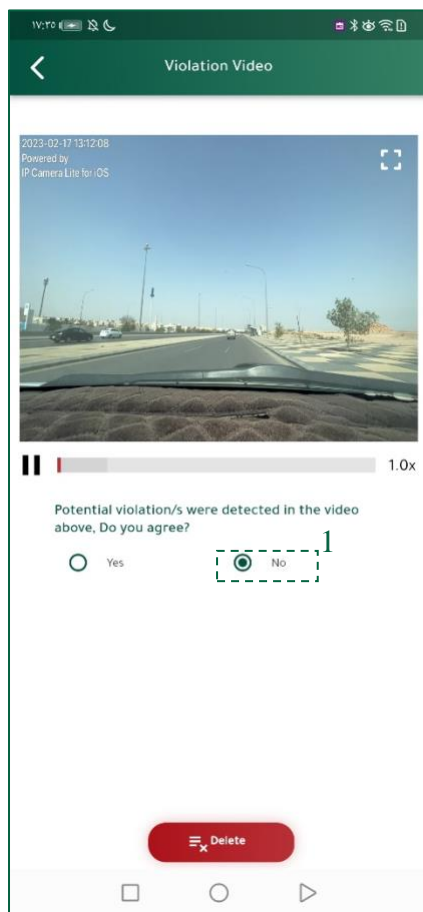

Figure 31 Reject Violation Video

#	Description
1	A No radio button. List of violation types and confirm button will be hidden.

Table 31 Reject violation video Description.

- If the driver clicks on delete -#6 form Table 29-

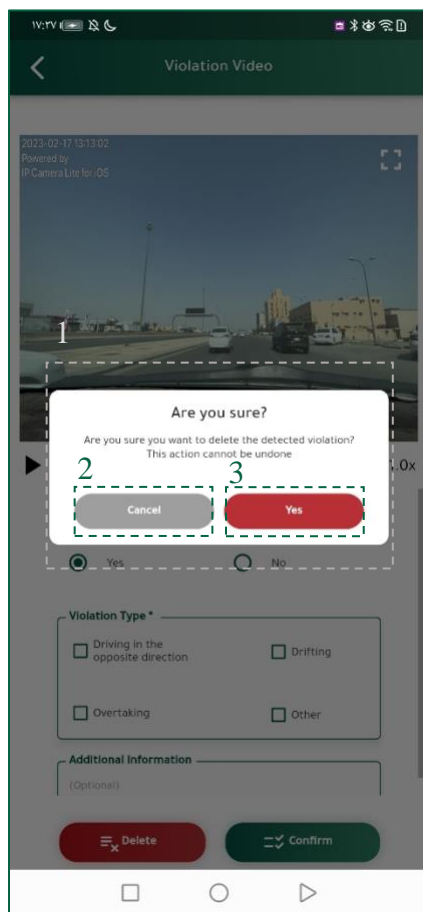

Figure 32 Delete Violation Video Pop-Up Message Confirmation

#	Description
1	A system conformation message is shown asking the driver whether they would like to delete the violation video.
2	A button that will not delete the pending violation video and transfer the driver to the pending violation video page.
3	A button that will delete the pending violation video.

Table 32 Delete Violation Video Pop-Up Message Confirmation Description

- If the driver clicks on ‘Yes’ button -#3 from Table 32-

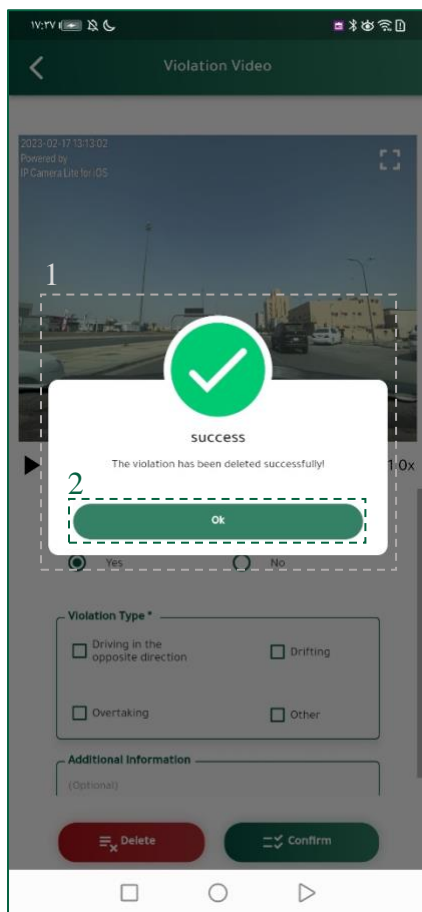

Figure 33 Delete Violation Video Success Message Pop-Up

#	Description
1	A system response message is shown when the driver successfully deletes the pending violation's video.
2	A button that allows the driver to transfer pending violation videos page.

Table 33 Delete Violation Video Success Message Pop-Up Description

- If the driver confirms the Violation video -#7 from Table 29-

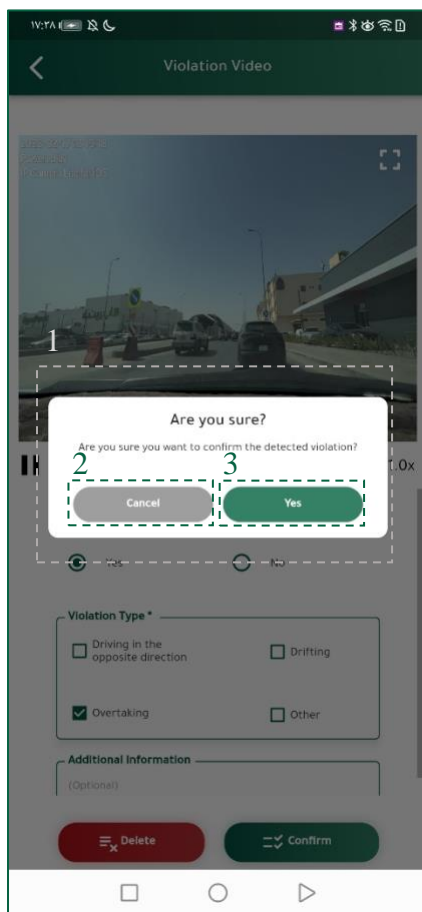

Figure 34 Confirm The detected violation System Confirmation Message

#	Description
1	A system conformation message is shown asking the driver whether they want to confirm the pending violation video.
2	A button that will not confirm the pending violation video and transfer the driver to show video page.
3	A button that will confirm the pending violation video.

Table 34 Confirm The detected violation System Confirmation Message Description

8 Confirmed Violation Reports Page

- If the driver clicks the view button -#4 or #8 from Table 13-

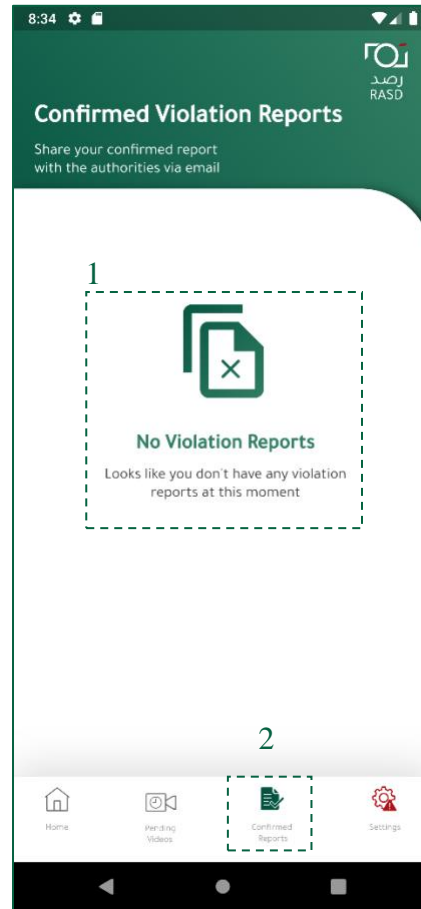

Figure 35 Confirmed Violation Report

#	Description
1	A system message that shows that there is no confirmed violation report yet.
2	A button in the bottom app bar colored in green to indicate that the driver is in the confirmed violation reports page.

Table 35 Confirmed Violation Report Description

- If the driver confirmed violation videos -#4 #8 from Table 13Table 34-

Figure 36 List of Violation Reports

#	Description
1	A list of confirmed violation reports.
2	A single report to be clicked by the driver in order to preview the generated violation report.
3	A button in the bottom app bar colored in green to indicate that the driver is in the confirmed violation reports page.

Table 36 List of Violation Reports Description

9 Preview Confirmed Report Page

- If the driver clicks on ‘Violation Report 1’ -#2 from Table 36-

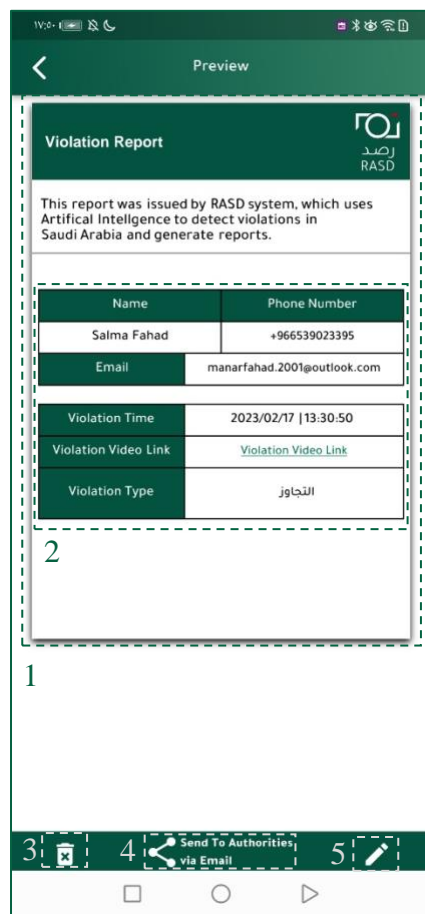

Figure 37 Preview Confirmed Report Page
